

Cloud Object Storage

An enterprise cloud object storage solution

Welcome to your new IBM® Cloud Object Storage service! It provides unstructured data storage for cloud applications. To get started - create a bucket, upload objects and set up access policies to allow other users to work with your data.

Buckets

Buckets serve as containers for objects, and can be individually configured in terms of their location, resiliency, billing rates, security, and object lifecycle rules.

About us

Thanks for your interest, here is a quick story of me and this website. Sandeep Jain An IIT Roorkee alumnus and founder of GeeksforGeeks. He loves to solve programming problems in most efficient ways. Apart from GeeksforGeeks, he has worked with DE Shaw and Co. as a software developer and IIIT Noida as an assistant professor. I do my work mainly in C-Language, C++ and JAVA. C++ and Data Structure & Algorithm are my stronger section. Besides these I know Web Development, LINUX and database as well. This website is basically one of my Web Development project which is built using HTML only.
